

 **GOLDCORP**
RED LAKE GOLD MINES

June 6, 2013

Suzanne Joly:
Safety Matters, Driver Training
OSL, Certified Driver Fleet Trainer
Dryden ON,

Suzanne:

Thank you kindly for providing the time to carry out DZ requirements for the Surface Response Team at Goldcorp – Red Lake Gold Mines in April.

The training provided was of high caliber and greatly appreciated. The time taken for both the classroom and field exercises was excellent. The Response team members took great stock of what you had to say show and explain. The classroom was very informative and when the field work was carried out it was easy to understand the field checks applications.

For those who had the driving testing carried out too were very appreciative and felt at ease during the field test.

With your guidance, and assistance we now have 10 additional candidates who are qualified to drive our new response vehicle safely and efficiently.

Respectfully,

Moe Goodwin

Safety Coordinator
Goldcorp, Red Lake Gold Mines
